4pm (Polish time)

and

Daniel Chatelain

Daniel is an experienced executive in the FinTech and Payment industry, founder of The BayPay Forum to foster innovation, and currently the CEO of PayKademy. He also serves as a mentor at 500 Startups, Plug&Play, and Berkeley Venture Capital Group. He sits on the board of disruptive companies.

Hamid Farzaneh

Seasoned leader and advisor with deep expertise in driving innovation, market expansion, and strategic growth. A key member of the Leadership Team at Poland in Silicon Valley Center (PolSV), with extensive experience across global ecosystems, particularly in fostering synergies between Silicon Valley and Poland.

Poland in Silicon Valley Center for Science, Innovation, and Entrepreneurship

Brief Outline

This webinar will explore the transformative impact of AI and Machine Learning in financial services, focusing on applications like fraud detection, risk management, and personalized services. We'll discuss emerging opportunities for academic research in these areas, address ethical and regulatory considerations within the European context, and examine the methodological challenges involved.

Join us for an engaging session with insights tailored for academics, offering a platform for Q&A and a look at the future of AI in fintech research.
