

## CRITERIA OF THESIS EVALUATION

1. The level of correspondence of content to the thesis title.  
*A positive grade may be awarded only if the thesis content corresponds to the thesis title*
2. Thesis organization, proper chapter order, proofs completeness, etc.
3. Formal aspects (language, technical details, table of contents, references, etc).
4. Student's involvement.
5. Literature research and references.
6. Substantive evaluation:
  - presentation of the state of the art.
  - quality of proposed solution
  - clarity of presentation
  - quality of research methodology
  - correctness of results and their presentation
  - reasoning leading to conclusions
