

## Instructions of registration for foreign language classes

During your studies, you will need to sign up for various subjects required in your study plan - for example, for foreign language classes. Before registering, check the code of the unit (faculty) consent with the field of study you have been admitted to - the example below concerns a student starting studies at the Faculty of Civil Engineering, majoring in civil engineering.

Silesian University of Technology [R]
Faculty of Architecture [RAR]
Faculty of Automatic Control, Electronics and Computer Science [RAU]
Faculty of Civil Engineering [RB]
Faculty of Chemistry [RCH]
Faculty of Electrical Engineering [RE]
Faculty of Mining, Safety Engineering and Industrial Automation [RG]
Faculty of Biomedical Engineering [RIB]
Faculty of Energy and Environmental Engineering [RIE]
Institute of Physics - Centre for Science and Education at Silesian University of Technology [RIF]
(in Polish) Szkoła Doktorów [RJO15-SD]
Faculty of Materials Engineering [RM]
Faculty of Mechanical Engineering [RMT]
Faculty of Organization and Management [ROZ]
Faculty of Transport and Aviation Engineering [RT]

### AFTER CHECKING THE UNIT, YOU CAN GO TO REGISTRATION FOR FOREIGN LANGUAGE CLASSES

To register for selected classes, log in to the USOSweb system - <https://usosweb.polsl.pl>. After logging in, go to "For students" tab, then select "Registration" and then "Registration for courses":

On the next subpage you will find a list of registrations currently available. Select the registration you are interested in and click "show items related to registration" or "go to registration":

Each subject has a dedicated group that indicates the program and stage of study for which the group is created. During registration, USOSweb strictly follows the dedications defined by the unit leading the group. A person who does not meet the group's dedication (is not registered for one of the programs and stages of the dedication) cannot sign up for it. The upper limits in a given group and the number of registered students are visible. You can only sign up for groups that do not have a full limit.

If you use the wrong filter and select the wrong unit, you will not be able to register - the last column is missing in the save option:

Group	Registered	Lower limit ⓘ	Upper limit	Teacher	Group description	Time	Dedications
language course							
1	15		18	Ewa Mężyk	none	Thursday 10:15-11:45	ChCh-SI7 / ChCh-SI7-1(1) , TChCh-SI7 / TChCh-SI7-1(1)
2	18		18	Iwona Roczniak	none	Thursday 10:15-11:45	ChCh-SI7 / ChCh-SI7-1(1) , TChCh-SI7 / TChCh-SI7-1(1)

## DEREGISTRATION FROM A SUBJECT

If you have accidentally register to the wrong subject/group, you can deregister and register for another subject/group while your registration is in progress (it must be in progress) if the upper limit has not been

reached and if the registration allows deregistration. To do this, go to the previously selected registration and click on the basket icon with an arrow pointing from its center outwards:

Correct deregistration will be confirmed by a message on the same subpage:

You are successfully unregistered from course

The system will allow you to register to the group again - to do this, please follow the instructions from the beginning.
