

Change of data on the student ID card

If your personal details shown on your student ID card (e.g. surname) have changed, you can apply for a new document. Note: requesting a photo change is not sufficient to replace the ID card.

Firstly, report the change of data to the Students Service Office. Once confirmed:

- for the **mLegitymacja studencka** (mStudent ID) – invalidate the current document and order a new one via the [USOSweb](#);
- for the **elektroniczna legitymacja studencka** (electronic student ID card) – pay a fee of PLN **22 zł**, then submit an application for a new document.

Detailed instructions are available in the relevant guidelines.

In the case of a change in personal data, a new student ID card is issued (with edition number "A"). When collecting the new student ID card, you must return the document with outdated data to the Students Service Office.

Duplicate of electronic student ID card

You may apply for a duplicate of your electronic student ID card if it has been damaged, lost or stolen. The duplicate contains the same data as the original card but has the next edition number („B”, „C”, ...). The fee for issuing a duplicate is 33 PLN, payable in the same way as for the original card.
