

Result of the Competition for the Student Position (EP-S-2026-9)

The OPUS 26 (LAP) research project titled “**Learning the Physics of Dendrite Growth in Lithium-Ion Batteries: An Attention Mechanism Approach for Prevention and Mitigation (DENDRITEPHASE)**” focuses on understanding the fundamental aspects that aid in preventing and mitigating dendrite growth in lithium-ion batteries. The DENDRITEPHASE project is funded jointly by the **Narodowe Centrum Nauki (NCN), Poland** and **Fonds voor Wetenschappelijk Onderzoek - Vlaanderen (FWO), Belgium**.

The competition [1] was announced for a student position within the DENDRITEPHASE project. The announcement Ref. **EP-S-2026-9** is related to the research stay at Silesian University of Technology, Gliwice, Poland. In response to the announcement [1], the recruitment committee received application from one (1) candidate.

The application was evaluated. The winner of the competition [1] for the student position (**EP-S-2026-9**) is **Ms. Maryam Soleimani**.

Recruitment Committee Members:

dr inż. Anil Kunwar (chairperson)

dr hab. inż. Tomasz Tański, prof. PŚ.

dr hab. inż. Wojciech Sitek, prof. PŚ.
