ECTS

2

Short description:

The aim of this program is to equip participants with a comprehensive understanding of sustainability reporting, enabling them to communicate an organization's commitment to sustainability effectively, align with global reporting standards and regulations, engage stakeholders, and apply best practices in various industries. Participants will develop the knowledge and skills needed to navigate the complex landscape of sustainability reporting, fostering a culture of transparency, accountability, and responsible business practices.

Description:

Lecture 15h:

1. Introduction to Sustainability Reporting

1.1. Understanding Sustainability: Definition of sustainability, Importance of sustainability in business

1.2. Sustainability Reporting Overview: Purpose and benefits of sustainability reporting, Evolution of sustainability reporting standards

1.3. Stakeholders and Sustainability: Identifying key stakeholders, Understanding stakeholder expectations, Handling stakeholder feedback and concerns

2: Sustainability Reporting Frameworks and Standards

2.1. Global Reporting Initiative (GRI): Reporting process according to GRI

2.2. Aligning reporting with the United Nations SDGs

2.3. Integrated Reporting: Concept and principles of integrated reporting, Integration of financial and non-financial information

2.4. ISO 26000: Social Responsibility

2.5. Environmental, Social, and Governance (ESG) disclosures

3. Regulatory landscape for sustainability reporting

3.1 The EU Directive on Corporate Sustainability Reporting (CSRD)

3.1 Data Verification and Assurance: Ensuring data accuracy and reliability, Third-party assurance and auditing

4. Reporting Case Studies and Best Practices: Industry-specific Reporting, Case studies from various industries

Project 15h:

1. Students create a sustainability report for a real organisation applying knowledge and skills acquired throughout the course.
